PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in React.js, TypeScript, and Tailwind CSS, currently working as a React Developer Intern and contributing to 7+ feature modules on a live employee management platform. Skilled in building responsive, reusable UI components, integrating REST APIs, and managing application state with React Query and React Router. Pursuing a B.Tech in Artificial Intelligence & Machine Learning. A strong problem-solver with a keen eye for clean, maintainable code and a passion for continuous learning.

WORK EXPERIENCE

AMX Innovation

June 2026 - Present

React Developer Intern - Project: Loop (Employee Management Platform)

- Developed frontend features for Loop, an employee management platform, using React.js and TypeScript.
- Built 10-20 reusable UI components and responsive dashboard views, improving development speed and UI consistency.
- Implemented 7+ feature modules, including employee, department, leave, and attendance management.
- Added 4 core UI features - search, pagination, filters, and tab-based navigation - to streamline dashboard usability.
- Synchronized UI state with the URL to maintain a consistent, shareable user experience across pages.
- Integrated REST APIs using React Query and managed application state with React Router across the platform.
- Collaborated with a team of 2-3 developers using Git and GitHub for version control and code reviews.

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning (AI/ML)

Pursuing

RGPV University

Diploma in Computer Science Engineering

Completed

Thakur Shivkumarsingh Memorial Polytechnic College, RGPV University - Burhanpur, M.P.

PROJECTS

Candidate Portal

2026

HTML5 · CSS3 · JavaScript · Tailwind CSS · PHP

- Built a candidate/intern management portal supporting 2 user roles (admin and candidate) with secure login flows.
- Designed an admin dashboard to manage candidate records, documents, and profiles.
- Implemented upload/download for 4+ document types, including resumes, offer letters, certificates, and LORs.
- Added 3 key features - search by name/ID, candidate profile pages, and certificate verification.
- Delivered a fully responsive UI and contributed basic PHP backend integration alongside frontend development.

Personal Portfolio Website

[Live-Site](#)

React.js · Tailwind CSS -2026

- Developed a modern, fully responsive personal portfolio using React.js and Tailwind CSS.
- Structured the site into 5 sections - About, Skills, Projects, Experience, and Contact - with smooth navigation.
- Built using a clean, component-based React architecture for easy maintenance and scalability.

Currency Converter

[Live-Site](#)

HTML5 · Tailwind CSS · JavaScript · REST API -2025

- Integrated a live exchange rate REST API supporting real-time conversion across 160+ global currencies.
- Added 2 key UX features - a conversion history tracker and a light/dark mode toggle - within a responsive Tailwind CSS UI.

SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Zustand, React Router

API & Backend: REST API Integration, React Query, PHP (Basic), Node.js (Basic)

Programming Languages: JavaScript, TypeScript, Python (Basic)

Tools: Git, GitHub, Vite, Netlify, Vercel, VS Code, Docker (Basic)

KEY STRENGTHS

Fast learner with a growth mindset • Strong problem-solving skills • Passionate about clean and maintainable code • Eye for UI/UX detail • Adaptable to new technologies
